

Choral Risers for Standing Singers

- The Modular Design allows flexibility to vary the number of levels.
- Sturdy and rugged built for convenience, durability, and safety.
- The individual riser units set up and connect quickly and are light enough for one person to handle. Units fold for compact storage.
- Decks are constructed with solid plywood, laminated with tempered hardboard on top and bottom, that is surrounded and supported by 16-gauge formed steel channels for maximum carrying capacity
- Legs of 1.05" diameter and 14-gauge steel tubing are braced with spring-bolt locks to support the heaviest loads with complete safety.
- Guard Rails are recommended and available separately.
